Rutland's Hospital is an institution as finely equipped as can be found in any city of the same size. The city has several major X-Ray plants and a physio-therapy plant.

Located about 600 feet above sea level midway of the southern range of the Green Mountains, the foremost city of northern New England.

Rutland is a manufacturing center, a railroad center, a mercantile center, a dairying center, a residential center. Its mills and factories give forth the incessant hum of industry and send their products to every corner of the world. Its farms and dairies supply products to the large cities. Its business houses deal with a buying population of over 80,000 people. Its residences are modern, and its civic pride is evidenced by the high standard of its streets, public buildings, etc. An ideal city of homes.

Rutland's railroad facilities are the best in the State, four trunk lines converging here. More than 100 trains daily pass through our yards. The Rutland Railroad shops, as well as the main offices, are located here. Rutland is 234 miles from New York, 167 miles from Boston and 163 miles from Montreal.

Rutland is connected with suburban towns for a distance of 22 miles by the Bus lines of the Rutland Railway, Light and Power Company. This same company furnishes the city with lights, gas and power for manufacturing purposes.

Maple Sugar Making Utensils

Most sugar makers tell us they get more real profit from their sugar orchards than from any other part of the farm.

The Grimm Evaporators, special coated buckets, covers and all other Maple Sugar Making Utensils we manufacture are sold on their merits.
